## Coax Cables

RG59 cables are compatible with both antenna and cable systems.

RG6 cables are compatible in all mini-dish satellite systems.

RG6 cables with weatherproof connectors are ideal for outside of the coach and where the elements might interfere with the proper operation of RG6 cables without the weatherproof connectors.

## Wirthco's Battery Disconnects

Wirthco's patented knife-blade battery disconnect switches carry 250 AMP continuous and 750 AMP

surge. These battery disconnects are great for preventing dead batteries and theft. They are quick and easy to install. Just connect one end to the battery and the other end to the battery cable. By lifting the lever, it completely disconnects the battery from the rest of the electrical systems of the vehicle, preventing battery drainage.
